

LINDROTH DESIGN

About Amanda Lindroth:

Amanda Lindroth has gained an international reputation for her interior design work and resort chic. With an early career including stints at Women's Wear Daily and Gucci, her eye was always drawn to fashion and interiors.

Upon moving to Nassau from Europe, Lindroth focused on interior design, imbuing the spirit of island life into her projects. While Lindroth's style shows great respect for classical design and architecture, her love for color, creativity and resort spirit shine through in her projects. Signature

favorites, such as the use of island motifs, hand-painted palm trees and awning stripes, led to such demand for her style and decorative pieces that her Palm Beach location, Lindroth Design, was born.

She recently debuted her Lindroth Island totes and basket bags, which were subsequently featured in Vogue, Town & Country, Harpers Bazaar and many design blogs. Lindroth's design work has been widely published in House Beautiful, Southern Living, Veranda, Coastal Living and Luxe Magazine. Her debut book, "Island Hopping", published by Vendome, is scheduled for release September of 2018.
