

Light On White is an international architecture and interior design studio creating exceptional properties in the world's most desirable locations. Under the direction of Alizée Brion, they work closely with clients to offer a highly personalized design service, continuously seeking the most elegant and innovative design solutions. Their award-winning work has been featured in the world's top design publications including Architectural Digest, Elle Decor and World of Interiors.

Always searching for the next creative challenge, the design studio presents their first foray into product design. *Objets* by Light On White is a collection of furnishings conceived as collectible sculptures produced in limited-edition and made-to-order series. Both the design process and final product reflect their enduring pursuit of beauty through creation of form and refinement of materials, along with a perpetual attraction to collection.
